What's New in the CompuApps OnBelay?

OnBelay is an anti-fraud app that allows an iPhone or iPad owner to verify that a device hasn't been lost or stolen via the Apple Find My iPhone app. OnBelay can be obtained via the App Store for $2.99. It is compatible with the iPhone 5, iPhone 5S, iPhone 6, iPhone 6 Plus, iPhone 6S, iPhone 6S Plus, iPhone 7, iPhone 7 Plus, iPhone 8, iPhone 8 Plus, iPhone X and the iPad Air, Air 2, Air 3, Air 3 Gen 2, Air 4 and Air 5. OnBelay setup review Once downloaded, simply open the app and you will be presented with a usage screen that includes an orange "X" on the bottom-right corner. The main task of OnBelay is to allow an individual to instantly know if a device is lost or stolen. This information is then routed to the Find My iPhone feature of the iPhone. When someone activates the device that they want to scan, the software will start scanning the device for a sign that it has been lost or stolen. The app includes a feature to scan the passcode of the device. If the device is then lost or stolen, an alert will be issued. Using OnBelay on the iPad For the first time scan, OnBelay will ask you to press and hold the "Home" button to launch the scan. The scan will start and will take approximately 10 to 20 seconds to complete. Then, the results will be shown on the screen. You can check the status of the device and get a list of all the information of the device. Some items in the list include the device name, device firmware, serial number, system model and network type. Checking warranty You can also access the warranty screen of the device by pressing the Apple logo on the middle bottom portion of the OnBelay screen. You are then presented with several warranty options on the screen. OnBelay will make available all information for you to view and buy the full warranty or if you can purchase a supplemental warranty. Drawbacks of OnBelay As far as the drawbacks of OnBelay are concerned, the app is only available for iOS devices. The app can be downloaded directly from the App Store and the iPad running version is on sale for $2.99. OnBelay is an anti-fraud app that allows an iPhone or iPad owner to verify that a device hasn't

System Requirements:

OS: Windows® XP/Vista/7/8 CPU: Intel® Pentium® III/AMD Athlon™ XP/AMD Opteron™ GPU: ATI Radeon™ x1600 or higher RAM: 1GB Keyboard & Mouse: Microsoft IntelliPoint™ Installation: Click on the "Run" button, and run it. When the installation is finished, click "Finish" to exit the setup wizard. In order to use the VRHeads X, you need to know its
