RPG SYSTEM: Combat Uses the Action Point (AP) system. Using AP requires agility and mastery of the skill being used.

The most important factor in combat is the Hero's Stamina (HP) and their defensive ability. Some characters can prevent damage by slowing the enemy attack or using a special defense ability. When attacked by an enemy, the Hero can make a defense move. If the defense is successful, the enemy attack is stopped. If the defense is not successful, the Hero can choose to make a counter attack move. Depending on the skill being used, successful counter attacks can deal AOE damage to the enemy. Swordsmanship Using the sword is an element of swordsmanship. Swordsmanship requires Dexterity and focus. The player can use sword strikes to perform basic melee attacks. If successful, the sword strikes will deal AP damage to the enemy. If the attack is successful, the Hero can make a defense move. If the defense is successful, the damage will be reduced. The player can perform effective sword strikes by timing the attack and defense within a short window of time. If the swordsmanship is successful, the AP and the defense value will be added together. If the defense value is successful, the damage will be reduced. Arcane Arts Using the arcane arts requires Intelligence and will. Characters can use a variety of skills to use magic. Each skill that the Hero can learn requires AP. Character attributes increase as AP increases, creating a virtuous circle that will increase the efficiency of the skills. There are five primary spells the Hero can learn. A basic level spell requires two AP. An advanced level spell requires four AP. An expert level spell requires eight AP. STATS AND MANAGERY STATS Strength The Hero's physical strength. The Hero's physical power is measured in the form of the number of Attack Points (AP) that can be used in a single combat. The Hero's speed and agility determines how fast the Hero is able to attack and execute a defensive move. The Hero's Defense Points (DP) help the Hero to reduce the AP damage of an attack. The difference between the AP and DP is represented as "Stamina" (HP). As the Stamina decreases, the strength will decrease. Using the Defense Points

This entry deals with the actual defeat of the tyranoid emperor Dr. Rex Nebular. The story of the Unveil is coming to a close after escaping Nebular

the Infinite's shadows. With the help of Lanceluss, the black mages, and the Order of the King of Time, the last chapter begins, the mystery of the window continent continues and the lands begin recovering from the Cocytus Flood.

2499june28

The advent of a new, more terrifying empire looms over the Darkness-mark, threatening all things that make up the world of Gomin. A large eastern power has invaded the darkness and one man has joined this power in order to save his home. A desperate fight against enemies marks the dawn of an age.

Comes the end to the story of Dr. Rex Nebular's life, and the upcoming reboot. Finishing the story of Unveil: The Final Chapter will be shut down indefinitely, except as a one-shot in event. I will not decide any further who should or should not find this story interesting. This is for myself rather than for any other person. I have been very busy with my main blog, and this blog will be a thing of the past.
